between the lines of the official histories of the frontier worlds of the 29th century lie myriad confidential accounts of the boners near catastrophes and interstellar crises that were bound to occur when human meets non human the adventures of cdc corps diplomatique terra diplomat jame retief loom large in six highly classified missions where brain and brawn save land and lives despite red tape bound superiors amid conspiracy and conflict across alien planets guaranteed astounding amazing startling galactic weird and thrillingly wonderful

from the acclaimed historian of global empire the dramatic story of how steam power reshaped our cities and our seas and forged a new world order steam power transformed our world initiating the complex resource devouring industrial system the consequences of which we live with today it revolutionized work and production but also the ease and cost of

movement over land and water the result was to throw open vast areas of the world to the rampaging expansion of europeans and americans on a scale previously unimaginable unlocking the world is the captivating history of the great port cities which emerged as the bridgeheads of this new steam driven economy reshaping not just the trade and industry of the regions around them but their culture and politics as well they were the agents of what we now call globalization but their impact and influence and the reactions they provoked were far from predictable nor were they immune to the great upheavals in world politics across the steam century this book is global history at its very best packed with fascinating case histories from new orleans to montreal bombay to singapore calcutta to shanghai individual stories and original ideas darwin s book allows us for better or worse to see the modern age taking shape a fine important and original book wonderful paul kennedy literary review

buying a car can be a smart idea a car loses the lion s share of its value when it is driven off the new car lot so why let someone else take that loss but buyer beware a used car is likely to need more repairs and may come with a short warranty or none at all in addition used cars may lack the latest safety features that is why it is so important for consumers to do extensive research so they can avoid all of the potential pitfalls of buying a used car the auto experts at consumer reports have done the work for you and have compiled their extensive research and report their findings into the 2007 edition of used car buying guide this fabulous tool will help steer any consumer who is in the market for a used car towards the better performing and more reliable used car models and away from those models with a troubled past or substandard performance before consumers set foot on a used car lot they should read all the valuable information provided in this book so they can be armed with as much information as possible and the knowledge to make an

educated choice consumer reports knows cars and offers the most detailed and revealing used car reliability information available anywhere including unbiased reviews of every major model from 1999 2006 lists of the best and worst used vehicles and how to avoid a lemon a checklist of what to look for when inspecting a used car best used cars for gas mileage tips on negotiating the best price reliability recalls and crash test information making sense of safety information how to get the most money when trading in your current car the majority of this book is devoted to the profiles of 264 cars minivans suvs and trucks presenting all major 1999 2006 models each profile contains a photo from the representative year a write up of the vehicle reliability history crash test data and the model years when key safety gear was added and when a major redesign was made

in this book two national security experts put the exploits of america s special operation forces in historical and strategic context david tucker and christopher j lamb offer an incisive overview of america s turbulent experience with special operations starting with in depth interviews with special operators the authors illustrate the diversity of modern special operations forces and the strategic value of their unique attributes despite longstanding and growing public fascination with special operators these forces and their contribution to national security are poorly understood with this book tucker and lamb dispel common misconceptions and offer a penetrating analysis of how these unique and valuable forces can be employed to even better effect in the future the book builds toward a comprehensive assessment of the strategic utility of special operations forces which it then considers in light of the demands of future warfare this second edition of united states special operations forces revised throughout to account for lessons learned in the twelve years since its first publication includes two new case studies one on high value target teams and another on village stability operations and

two new appendixes charting the evolution of special operation missions and the best literature on all aspects of u s special operation forces

the intricate diplomacy that led to the peace agreement in bosnia known as the dayton accords is here revealed in unprecedented detail based on thousands of still classified government documents and dozens of interviews with key participants this is a comprehensive story of high level diplomacy told from the inside

in this fresh and challenging study of the origins of the cold war professor eisenberg traces the american role in dividing post war germany drawing upon many original documentary sources she examines the allied meeting on the elbe follows the great powers through their confrontation in berlin and culminates with the creation of the west german state in the fall of 1949 in contrast to many works in the field the book argues that the partition of germany was fundamentally an american decision us policy makers chose partition mobilized reluctant west europeans behind that approach and by excluding the soviets from west germany contributed to the isolation of east germany and the emergence of the post world war ii us soviet rivalry the volume casts new light on the berlin blockade demonstrating that the united states rejected united nations mediation and relied on its nuclear monopoly as the means of protecting its german agenda

this volume establishes amitai etzioni s communitarian approach to international relations as a distinct school of american foreign policy thought nikolas k gvosdev systematically evaluates etzioni s ideas tracing their origins during the cold war and their relevance to current challenges in asia and the middle east and considering their strengths and weaknesses etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are

eroding and that a new set of global norms is required however he argues against the imposition of western policies on the rest of the world which he sees as a recipe for conflict which the united states cannot afford he warns against the post cold war triumphalism arguing that it undercuts efforts to find necessary common ground with both russia and china an enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations the trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats

this collection of essays represents some of the best work of two significant contemporary voices in the field of interpretation including original pieces written for this publication and reprints of articles that have appeared in national association for interpretation publications spanning three decades whether you are new to the field or an experienced interpreter you will be inspired by larry beck and ted cable s unique ability to find interpretive lessons in tangential fields beauty in the everyday and hope in the future

this book recreates the tensions and uncertainties of the events of 1940

from the author of the acclaimed international bestseller lawrence in arabia a stunningly revelatory narrative history of one of the most momentous events in modern times and the dawn of the age of religious nationalism on november 16th 1977 at a state dinner in the white house president jimmy carter toasted shah mohammad reza pahlavi king of kings light of the aryaans shadow of god on earth praising his enlightened leadership and extolling iran as a stabilizing influence in

that part of the world iran had the world s fifth largest army and was awash in billions of dollars in oil revenues construction cranes dotted the skyline of its booming capital tehran the regime s feared secret police force savak had crushed communist opposition and the shah had bought off the conservative muslim clergy inside the country he seemed invulnerable and invaluable to the united states as an ally in the cold war fourteen months later the shah fled iran into exile forced from the throne by a volcanic religious revolution led by a fiery cleric named ayatollah khomeini how could the united states and other western allies which had one of the largest cia stations in the world and thousands of military personnel in iran have been so blind the spellbinding story scott anderson weaves is one of a dictator oblivious to the disdain of his subjects and a superpower blundering into disaster the shah emerges as a fascinating shakespearian character a wannabe richard iii unaware of the depth of dissent to his rule indecisive like hamlet when action was called for and at the end lear like as he raged against his fate the americans made terrible decisions at almost every juncture from a secret pact designed by kissinger and nixon to dismissing reports from the one diplomat who saw how hated the shah was by the iranian people unlike almost all his colleagues he spoke farsi to jimmy carter allowing the shah to come to america for medical treatment which set off the hostage crisis which forever damaged american influence in the world scott anderson tells this astonishing tale with the narrative brio mordant wit and keen analysis that made his bestselling lawrence in arabia one of the key texts in understanding the modern middle east based on voluminous research and dozens of interviews king of kings is driven by penetrating portraits of the people involved the iranian american doctor who convinced american officials khomeini was a moderate the american teacher who learned of khomeini s influence long before the cleric was even mentioned in official reports the shah s court minister who kept a detailed diary of all their interactions the shah s wife farah who still mourns her lost kingdom the hypocritical and misguided jimmy carter and the

implacable khomeini who outmaneuvered his foes at every turn the iranian revolution anderson convincingly argues was as world shattering an event as the french and russian revolutions in the middle east in india in southeast asia in europe and the united states the hatred of economically marginalized religiously fervent masses for a wealthy secular elite has led to violence and upheaval and iran was the template king of kings is a bravura work of history and a warning

according to legend the garden of eden was located in iraq and for millennia jews resided peacefully in metropolitan baghdad memories of eden a journey through jewish baghdad reconstructs the last years of the oldest jewish diaspora community in the world through the recollections of violette shamash a jewish woman who was born in baghdad in 1912 sent to her daughter mira rocca and son in law the british journalist tony rocca the result is a deeply textured memoir an intimate portrait of an individual life yet revealing of the complex dynamics of the middle east in the twentieth century toward the end of her long life violette shamash began writing letters notes and essays and sending them to the roccas the resulting book begins near the end of ottoman rule and runs through the british mandate the emergence of an independent iraq and the start of dictatorial government shamash clearly loved the world in which she grew up but is altogether honest in her depiction of the transformation of attitudes toward baghdad s jewish population shamash s world is finally shattered by the farhud the name given to the massacre of hundreds of iraqi jews over three days in 1941 an event that has received very slight historical coverage the farhud is further described and placed in context in a concluding essay by tony rocca

margaret thatcher and the middle east examines thatcher s policy on the middle east with a spotlight on her approach towards the israeli palestinian conflict it questions claims that she sought to counter the foreign office middle east policy

and maintains that the prime minister was actually in close agreement with the whitehall bureaucracy on the arab israeli conflict in particular the volume argues that thatcher s concerns over soviet ambitions in the middle east encouraged her to oppose the policies of israel s likud governments and to work actively for an urgent resolution of the conflict furthermore while thatcher was strongly pro american this was not translated into automatic support for israel indeed the thatcher government was very much at odds with the reagan administration over the middle east as a result of washington s neglect of the forces of moderation in the region

a compelling expansive history of the relationship between china and russia from the seventeenth century to the present russia and china the largest and most populous countries in the world respectively have maintained a delicate relationship for four centuries in addition to a four thousand kilometer border they have periodically shared a common outlook on political and economic affairs but they are in essence profoundly different polities and cultures and their intermittent alliances have proven difficult and at times even volatile philip snow provides a full account of the relationship between these two global giants looking at politics religion economics and culture snow uncovers the deep roots of the two nations alignment we see the shifts in the balance of power from the wealth and strength of early qing china to the tsarist and soviet ascendancies and episodes of intense conflict followed by harmony he looks too at the experiences and opinions of ordinary people which often vastly differed from those of their governments and considers how long the countries current amicable relationship might endure
