the crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from western europe from the late 11th to the early 14th centuries for the purpose of wresting jerusalem and the holy land from the control of the muslims in the end it was the muslims who won and the christians who suffered a major setback and the middle east remained firmly in muslim hands this was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over that is no longer the case with many muslims regarding western interference in the region as a repeat of the crusades while launching their own jihads so while an old conflict it is still with us today even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today this historical dictionary of the crusades cannot claim to have resolved it but it most definitely does make the situation
